

Requirements Brief: Community Connect - Community Events Organiser App

Interview Summary

A 30 minute mock interview was held with a fictional community organiser named "Alex". Alex oversees various local events, including charity runs, book clubs and youth workshops. During the discussion, Alex expressed the necessity for an app that would simplify event planning, enhance community engagement and improve communication among participants.

Functional Requirements

Event Creation and Management

Create events including details

Set event visibility as public or private.

Assign co-organisers with permission to edit event details.

User Registration & Profiles

Enable sign-up via email or social media platform
